

# PROPOSAL ARC

Amisha Prakash | Principal Proposal Architect | US Citizen

I help hard-tech businesses win government contracts by taking the complexity out of the proposal process. With 20 years in the aerospace industry, an engineering background, and experience as a start-up executive, I bring the technical credibility and strategic expertise your team needs to compete and win.

## SERVICES

### ENGAGEMENT-BASED

#### Proposal Services

I work with your team to architect and write **winning proposals**, from initial opportunity review through final submission. Whether you need **structural guidance** to get started or full **end-to-end proposal management**, I handle the compliance, strategy, and writing so your team can focus on running the business.

### ONGOING

#### Business Dev. & Advisory

An **embedded partner** to build your pipeline and strengthen your competitive position. I **source and evaluate opportunities**, provide bid/no-bid guidance, **manage active proposals**, and offer ongoing **strategic advisory support** - so you're always pursuing the right contracts with the strongest possible approach.

## WHY WORK WITH ME
